

Child Care Connection

A program of Family Services of Central Massachusetts

offers the following training funded in part by the Department of Early Education and Care

Mother Goose Cares About Math & Science

Children naturally explore the world around them. The *Mother Goose Cares About Math & Science* program, created by The Vermont Center for the Book, helps educators build upon this curiosity by integrating math, science, language and literacy into their everyday interactions with preschool children. During this 3-part training, participants will learn to use quality children's literature to stimulate "investigations" that relate to Massachusetts Math and Science Standards and Guidelines.

NOTE: Space is limited. Pre-registration is required. Each center or provider will receive one (1) Mother Goose curriculum kit, valued at \$250. Food and beverage are not provided; please bring your own or visit a take-out restaurant/market nearby. *Training co-sponsored with Preschool Enrichment Team.*
